

Our Cloudy Water Problem Recommendations Are Below!

Please see our step by step solution and recommended products below. You can shop products online, [download a pdf](#) of this page or [print a shopping list](#) that you can bring in store to help find what you need.

Problem

Cloudy Water

Solution

- Step 1** Test water balance and adjust if necessary
- Step 2** If the filter is dirty or damaged then clean with [BAQUA Spa® Filter Cleaner](#) or change filter cartridge*
- Step 3** Test [BAQUA Spa® Sanitizer](#) level and adjust if necessary
- Step 4** Add [BAQUA Spa® Oxidizer](#) and [BAQUA Spa® Spa Shield Clarifier](#) weekly to prevent build up

If the cloudy water is due to the addition of incompatible chemicals, drain and refill the spa.

*A degreaser/TSP (tri sodium phosphate) should not be used during the filter cleaning process as products containing phosphates are incompatible with the [BAQUA Spa® Sanitizer](#).
